

Quick Guide to 19th Century Masterfile™

A. Stationary Search and Browse

The *Search* and *Browse* functions remain constant in all displays within *19th Century Masterfile*. Patrons can instantly modify or change search terms. * and ? wildcard operators are also available.

B. Identification of Citation Sources

You can clearly identify the source of citations, increasing awareness and broadening your 'research net.'

C. Identification of E-Sources

Clear identification of citations which link to E-content at other sites (direct or OpenURL links). These include *JSTOR*; *Hein Online*; *Accessible Archives*; *America: History and Life*; additional subscription sites as well as public data sources.

D. Saving Items, E-mail, Exporting Data

Saving Selected Items is simplified, along with the process to *E-mail*, *Download* and *Sort* search results. Export citations in *Brief Record*; *Full Record*; *RefWorks* or *EndNotes* format.

E. Navigation

Navigation is simplified and streamlined to move between brief and full citation information or full MARC display.

F. Customized logos for your library

Your library may include a logo, which will appear on the search page and throughout the display.

G. Intermediate Displays and Descriptions

This new display gives rapid access to the wide variety of sources available through *19th Century Masterfile*. Moreover, each title contains links to information on the history of the source and its value to historians and researchers.

H. Search Options (not visible here)

The display defaults to 20 citations, with options for 30 and 50. Additional search options include Wildcard; Exact Words; Exact Phrase and Boolean operators.
